

<b>Table S4. DKK4 deregulation reported in different tumors and its therapeutic potential.</b>			
<b>Tumor</b>	<b>Reported function</b>	<b>Selected evidence for therapeutic potential</b>	<b>References</b>
<b>Ovarian cancer</b>	Oncogene	Prognostic factor	1,2
		<i>In vitro</i> migration/invasion	1
<b>Pancreatic cancer</b>	Oncogene	Diagnostic factor	3–5
<b>Renal cell carcinoma</b>	Oncogene	Diagnostic factor	6,7
		Prognostic factor	7
		<i>In vitro</i> proliferation	6,7
		<i>In vitro</i> migration/invasion	6,7
		<i>In vivo</i> tumor growth	6,7
<b>Hepatocellular carcinoma</b>	Tumor suppressor	Diagnostic factor	8
		Prognostic factor	9
		<i>In vitro</i> proliferation	8–12
		<i>In vitro</i> migration/invasion	8,9
		<i>In vivo</i> tumor growth	8–12
<b>Colorectal cancer</b>	Oncogene	Diagnostic factor	13
		Prognostic factor	14
		<i>In vitro</i> proliferation	15
		<i>In vitro</i> migration/invasion	15,16
		<i>In vivo</i> tumor growth	17
<b>Gastrointestinal stromal tumor</b>	Tumor suppressor	<i>In vitro</i> proliferation	18
	Oncogene	Prognostic factor	19
<b>Lung cancer</b>	Oncogene	<i>In vitro</i> proliferation	21
		<i>In vitro</i> migration/invasion	21
	Tumor suppressor	Prognostic factor	22
