

Supplementary Table S2. Locations of distant recurrences AFU1

	Abemaciclib+ET N=2808^a	ET alone N=2829^a
Bone	73	148
Liver	58	88
Lung	40	46
Brain	16	26
Lymph node	13	20
Pleura	11	16
Central nervous system	6	4
Soft tissue	3	2
Skin	2	4
Other ^b	19	21

^aSome patients were counted more than once in subcategories if they had recurrence at different locations (for example, if a patient had local/regional recurrence and distant recurrence, or if a patient had liver and bone metastases)

^bIncludes ovarian (2), suprarenal, bone marrow, left scapula, abdomen, submandibular lesion, spleen, ascites, epidural, mediastinum, left adnexal mass, neck, fallopian tubes, adrenal (3), pericardial effusion, left orbit, spine, colon, gallbladder, peritoneum
Abbreviations: ET=endocrine therapy; N=number of patients in population
