

Supplementary Table 1: Characteristics of subjects surveyed.

	2011 survey n=6528	2021 survey n=6534
Sex, male, n (%)	3060 (46.9)	1059 (53.6)
Age (avg ± SD)	59.8 (13.1)	61.5 (13.1)
Smoking history, n (%)		
Never smoked	3441 (52.7)	3554 (54.4)
Former smoker	1819 (27.9)	2018 (30.9)
Current smoker	1268 (19.4)	958 (14.7)
Attempted to quit smoking, n (%)	798 (62.9)	609 (63.6)
Perceived level of health, (avg ± SD) ¶	7.1 (1.7)	7.4 (1.7)
Report respiratory symptoms, n (%)	1877 (28.8)	1618 (24.8)

Data expressed as mean (standard deviation) or in absolute (relative) frequencies according to the nature of the variable.

¶ Perceived health was evaluated on a scale from 0 to 10 points, with a higher score meaning better perceived health.
