

Supplementary material:

Supplemental Table 1. CNS relapses in patients with low or intermediate CNS-IPI and involvement of extranodal sites not considered HR-CNS relapse and not included in the analysis.

	N	CNS relapse
Low or intermediate CNS IPI		
Paraspinal mass	38	0
Sinus	69	3
Orbit	6	0
Skull	6	1

Supplemental\_Figure 1. Cumulative incidence of CNS relapse by prophylaxis excluding patients who received concomitant IT and HD-MTX prophylaxis (n=574).

Supplemental\_Figure 2. CNS rate by immunochemotherapy regimen.
